"We wholeheartedly endorse The AirPac team. They provided the AC for our daughter's July 4th wedding. They are very professional, were a pleasure to deal with, and delivered their services flawlessly. The temperature outside was in the high 80's and the dance floor in the tent was delightful. What else can you ask for?"

"We were really hoping we wouldn't need air-conditioning but we definitely did and they came out to save the day. My mother-in-law was REALLY thankful for them!"

"We hired AirPac as we know that August can be very hot and humid..and it was very hot the night of the wedding. But AirPac had the tent exceptionally cool and comfortable. The units were very discrete and they were whisper quiet. The crew that installed them were professional and friendly! Overall an excellent experience and would HIGHLY recommend them!"

"If you are planning a tent wedding AirPac is essential! Sweaty, overheated guests are not going to have a good time! With all the details that go into a perfect day - do not overlook keeping guests cool and comfortable!...Thank god we booked AirPac! They are very professional, and Tina very good at explaining what could be overwhelming information."

"...All I can say is if you're having a summer tent wedding and are on the fence about AC, do it! It's worth every penny and your guests will thank you. Thank you for making our event a success, AirPac!"

LITITZ, PA

"Their sleek, efficient equipment works incredibly well all while not compromising the sophistication and elegance of the event. They arrive on schedule, deliver and set up their equipment and promptly break everything down when it is over. Having an attendant on site the entire event is a huge help as well. When one of my couples mentions air conditioning, I send them in AirPac's direction!"

"It was literally 100 degrees that day for the outdoor wedding, but we were absolutely SAVED by the amazing air conditioning in the event venue tent for the reception. Even with the extreme heat, the tent was a very marvelous 75 degrees from the AirPac air conditioners. Even more astounding was that the units were entirely noiseless - just blissfully cooling even with all the dancing generating extra heat. All the guests commented on how cool and quiet they were."

"These folks are fabulous, knowledgeable, and professional. They also have access to backup equipment so if there's an issue with their equipment, you'll never know it. And what if it had been 50 degrees instead? The tent would've still been perfect. Do not skimp on the comfort of your guests - trust these professionals."

"The tent was a cool place to escape to after the ceremony. AirPac was easy to work with and they made the air units blend in with the tent. They also worked well with my planner and other vendors! Thank you AirPac for keeping our wedding cool and memorable!"
- Carrie, Review on The Knot

STONE MANOR COUNTRY CLUB

MIDDLETOWN, MD

"They were fantastic to work with, it was all set up and running when we got there - even before the ceremony! The tent was PERFECT when the reception started! We couldn't have been happier. I would highly recommend them! They helped make our day PERFECT - and it was perfect! A huge Thank you to AirPac!"
- Beth, Review on The Knot

BELMONT MANOR ELKRIDGE, MD

"They did an OUTSTANDING job working with the Belmont Manor staff to meet their requirements for preserving the historic site, and as promised provided a cool tent for our guests with equipment that was super quiet. On top of all of that, the AirPac team was able to pack up and exit the property within about 30 minutes at the end of the night, helping us avoid the loss of our security deposit. From the first phone call I made to them thru the end of the event AirPac was very easy to work with, professional in all respects and 100% focused on us. If I ever have another need to hire a company to air condition a venue I will be calling AirPac!"
